Fast Facts: Locks and Access Control

Intertek is recognized by all the major code bodies throughout the world

We are a Nationally Recognized Testing Laboratory (NRTL) by OSHA; recognized by Standards Council of Canada (SCC); and A2LA, APLAC, and ILAC accredited for Asia and other parts of the world.

Our ETL Listed Mark and WH Mark are accepted by authorities having jurisdiction across North America.

Locks and Access Control Products Testing and Certification

Intertek has more than 30 years of experience testing building hardware products and our expert engineers understand the requirements these products must meet. We help manufacturers attain product certification with greater ease than ever before. Faster turnaround times, greater service and global expertise are just some of the reasons why manufacturers choose Intertek.

We provide testing and certification services for locks and access control products including:

- Fire testing
- Hurricane/ Tornado resistance
- Performance testing (BHMA)
- Structural testing
- Electrical testing
- UL 294 testing and certification

Why Intertek?

Whether it's conducting testing to applicable standards, working with you to create a test plan, or working to educate you on the latest global requirements, Intertek is committed to helping you reach global markets quickly.
