

# uplink® 4500EZ

## GSM Universal Cellular Alarm Communicator

### For Primary Or Redundant Alarm Communications

The Uplink 4500EZ includes the latest GSM technology for the best performance and longest life cycle. Compatible with 3G and 4G cellular networks, the 4500EZ also operates on redundant networks for maximum reliability. The 4500EZ is designed as a summary event communicator. All major formats are supported for compatibility with virtually all alarm systems and central stations. Installation of the Uplink 4500EZ is remarkably easy with the use of a secure website and unit switch settings. Activation is instant and is available using the dealer website or by a live operator.

### Uplink Advantages

Secure dealer website for activation, configuration, and management

Flat-rate billing with no overage charges

Programmable periodic test intervals

Works with virtually any central station

Uplink Remote for interactive control and end-user notifications

Mobile activation and signal strength with Uplink Installer™

Live technical and activation support\*

### Uplink 4500EZ Device Feature:

- ✓ Primary or redundant alarm communications for residential or commercial security
- ✓ Supports virtually all security systems and multiple formats
- ✓ Programmable monthly, weekly, or daily status and signal tests
- ✓ Power from the panel or separate 12V DC power supply (not included)
- ✓ Two web configurable outputs
- ✓ Web and smartphone apps for remote arming and disarming
- ✓ Installs in minutes with reliable end-to-end signal verification
