ALARM COMPANY BRANDING:

- Your alarm company's logo is displayed on the user website and mobile app
- Your company contact information is displayed in the user support area
- A remote app login form can be installed on your company's website

FREQUENTLY ASKED QUESTIONS

Q. Why should I use Uplink?

- A.** Uplink is a leader in cellular services in the alarm industry. With over 500,000 cellular communicators sold, we know how to deliver reliable cellular service and the best support for alarm dealers. If you don't have an Uplink dealer account, you can get one online in minutes, or you can purchase Uplink service from leading independent central stations.

Q. Why is Uplink's service better?

- A.** Instead of a-la-cart pricing for each item, or a one price fits all model, Uplink for 2GIG provides dealers flexible service options while simplifying pricing choices into a few logical groups. Pay only for the services you and your customers need, and add and remove features at any time.

Q. How can I get Uplink services for the 2GIG systems I sell?

- A.** 2GIG GoControl firmware version 1.13 or later, and a special model of 2GIG radio, model # 2GIG-GC3GUP-U, that contains an Uplink SIM for U.S. service.

The next step is to activate your Uplink service for 2GIG today. You can find step-by-step instructions at www.uplink.com/2gig. Or contact your Uplink sales representative or Uplink Customer Support for help.

Contact your central station for activation instructions if you are purchasing your Uplink service from them.
